ABOUT THIS REPORT

This report details findings against the *Standards for Registered Training Organisations 2015*.

The evidence guidance included against each clause is designed to guide the auditor and RTO on the requirements of the clause. The evidence guidance is not designed to limit the audit findings and there may be other factors an auditor takes into consideration when determining whether compliance has been demonstrated.

Where evidence of non-compliance is identified, the '*Reasons for finding of non-compliance*' section of the report will document the issues that were considered in the formulation of a finding of non-compliance.

STANDARD 1 **The RTO’s training and assessment strategies and practices are responsive to industry and learner needs and meet the requirements of training packages and VET accredited courses.**
To be compliant with Standard 1 the RTO must meet the following:

Clause 1.1
The RTO’s training and assessment strategies and practices, including the amount of training they provide, are consistent with the requirements of training packages and VET accredited courses and enable each learner to meet the requirements for each unit of competency or module in which they are enrolled.

Original finding: Not compliant	Following rectification: Compliant		
Evidence guidance	Y	N	N/A
A training and assessment strategy (or strategies) was provided for each training product sampled	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Each strategy is consistent with the requirements of the training product	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Each strategy provides a framework to guide the learning requirements and the training and assessment arrangements of each training product – the macro level requirements of the learning and assessment process	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Each strategy identifies an amount of training to be provided to learners that is consistent with the requirements of the training product	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Each strategy has been consistently implemented	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

NOTE – transition arrangements may apply to this clause for audits conducted prior to 30 June 2015

Reasons for finding of non-compliance:

- For each of the qualifications evaluated at the site audit, the strategies provided have been developed for the purpose of delivery within a school. The organisation intends conducting training for employers to employees in the workplace. There is no evidence of a strategy for the delivery to employers or the resources to be required. The strategies did not identify trainers/assessors.

In order to become compliant, the organisation is required to:

- Provide a strategy for each of the qualifications on its application which accurately identifies the strategy and practices of the organisation, including the amount of training to be provided which is consistent with the requirements of the relevant training packages and enable each learner to meet the requirements of each unit of competency to achieve an outcome of competent.

Analysis of rectification evidence:

- The organisation provided the following evidence:
Cert I MSF10113 Training & Assessment Strategy
Cert II MSF20313 Training & Assessment Strategy
Cert III MSF31113 Training & Assessment Strategy

The organisation provided amended training and assessment strategies for the above qualifications which accurately identify the strategy and practices of the organisation, including the amount of training to be provided which is consistent with the requirements of the relevant training packages and enable each learner to meet the requirements of each unit of competency to achieve an outcome of competent.

Clause 1.2

For the purposes of [Clause 1.1](#), the RTO determines the amount of training they provide to each learner with regard to:

- a) the existing skills, knowledge and the experience of the learner;
- b) the mode of delivery; and
- c) where a full qualification is not being delivered, the number of units and/or modules being delivered as a proportion of the full qualification.

Original finding: Not compliant

Following rectification: Compliant

Evidence guidance

Y N

For each training product sampled, the amount of training to be provided identified in each strategy is consistent with:

- | | | |
|---|--------------------------|-------------------------------------|
| • the existing skills, knowledge and experience of learners | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| • the mode/s of delivery | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| • the number of units and/or modules being delivered | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Each strategy is consistent with the AQF volume of learning benchmarks, taking into account the above items

Reference: [AQF](#), [AQF volume of learning](#)

NOTE – transition arrangements may apply to this clause for audits conducted prior to 30 June 2015

Reasons for finding of non-compliance:

- The strategies are geared to the delivery in a school environment with the school conducting the training and assessing. As the organisation’s representatives advised the Lead Auditor that the intention of delivery is through the workplace with an agreement to be developed for each employer which will take into account the existing skills and specific elective units required by the employer. The organisation has not developed strategies which identify this approach. Therefore not articulating the amount of training they provide.

In order to become compliant, the organisation is required to:

- Provide evidence that demonstrates that the organisation’s strategies articulate the amount of training they provide to each learner which is determined by:
 - The existing skills, knowledge and experience of the learners
 - The mode/s of delivery
 - The number of units and/or modules being delivered

Analysis of rectification evidence:

- The organisation provided the following evidence:
Cert I MSF10113 Training & Assessment Strategy
Cert II MSF20313 Training & Assessment Strategy
Cert III MSF31113 Training & Assessment Strategy

The organisation provided amended training and assessment strategies for the above qualifications which demonstrate that the organisation’s strategies articulate the amount of training they provide to each learner, determining:

- The existing skills, knowledge and experience of the learners
- The mode/s of delivery
- The number of units and/or modules being delivered

Clause 1.3

The RTO has, for all of its scope of registration, and consistent with its training and assessment strategies, sufficient:

- a) trainers and assessors to deliver the training and assessment;
- b) educational and support services to meet the needs of the learner cohort/s undertaking the training and assessment;
- c) learning resources to enable learners to meet the requirements for each unit of competency, and which are accessible to the learner regardless of location or mode of delivery; and
- d) facilities, whether physical or virtual, and equipment to accommodate and support the number of learners undertaking the training and assessment.

Original finding: Not compliant

Following rectification: Compliant

Evidence guidance	Y	N
For all training products sampled, there are sufficient:		
• trainers and assessors	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• educational and support services to meet the needs of learners	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• learning resources that address the requirements of all components of the relevant training product and are accessible to all learners	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• facilities and equipment to accommodate the number of learners	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Consistency is evident between each strategy and the above resources	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Reasons for finding of non-compliance:

- The organisation’s strategies do not allow for all physical resources needed to ensure all components of the relevant Training product are accessible to all learners, for example an individual employer and/or school may not have purchased all required equipment necessary to meet the requirements of the relevant training package/s.

In order to become compliant, the organisation is required to:

- Provide its strategies which ensure all resources will be available at the relevant school and or workplace which will ensure the learner is trained and assessed against all aspects of the relevant training package.

Analysis of rectification evidence:

- The organisation provided the following evidence:
Cert I MSF10113 Training & Assessment Strategy
Cert II MSF20313 Training & Assessment Strategy
Cert III MSF31113 Training & Assessment Strategy

The organisation has provided evidence of amended training and assessment strategies which ensure all resources will be available at the relevant school and or workplace which will ensure the learner is trained and assessed against all aspects of the relevant training package.

Clause 1.4

- For each of the above qualifications, the organisation's assessment evidence evaluated at the audit site visit does not meet all aspects of the relevant training package units of competency and did not meet the rules of evidence and principles of assessment in that they did not:
 - Evidence assessment against all requirements of the knowledge, skills, elements, performance criteria and critical aspects of each unit of competency.
 - Assessments were not fully developed. The organisation has developed a theory assessment process which is used across each qualification. A training resource for each qualification has been developed with theory questions which require the learner to copy the required information/answer from the training resource (open book). Whilst this process (formative approach to assessment) can be used as a valuable indicator to the assessor, it does not in itself provide evidence of competence in the subject matter and meet the unit requirements. In some instances the subject matter/question to be completed has not been developed. Practical assessments do not allow for clear instructions to both the learner and assessor ensuring consistency amongst assessor judgements and do not ensure consideration of dimensions of competency and transferability.
 - Provide criteria defining acceptable performance (often referred to as model answers).
 - Provide clear instructions for both assessor and the learner to ensure consistency amongst assessors about judgements made

In order to become compliant, the organisation is required to:

- Provide a complete set of assessment materials that meets the principles of assessment, the rules of evidence and all the requirements of the above units of competency.
 - Provide revised assessment tools that ensure the collection of sufficient and valid evidence and that address the assessment requirements of the units.
 - Provide evidence of guidance to assessors on the level of performance required in the practical task (observation) and the depth and breadth of response required for the assessment of knowledge (written test) to ensure a reliable decision of competence can be made.

Analysis of rectification evidence:

- The organisation provided the following evidence:
 - Observations checklists*
 - Resource books*
 - Tasks*
 - Tests*

Test Answer guides

- The organisation has provided a full suite of assessment materials which meet the principles of assessment, the rules of evidence and all the requirements of the above units of competency.
- The organisation has provided revised assessment tools that ensure the collection of sufficient and valid evidence and that address the assessment requirements of the units.
- The organisation has demonstrated evidence of guidance to assessors on the level of performance required in the practical task (observation) and the depth and breadth of response required for the assessment of knowledge (written test) to ensure a reliable decision of competence can be made.

Clause 1.9
The RTO implements a plan for ongoing systematic validation of assessment practices and judgements that includes for each training product on the RTO’s scope of registration:
a) when assessment validation will occur;
b) which training products will be the focus of the validation;
c) who will lead and participate in validation activities; and

Clause 1.10

For the purposes of [Clause 1.9](#), each training product is validated at least once every five years, with at least 50% of products validated within the first three years of each five year cycle, taking into account the relative risks of all of the training products on the RTO’s scope of registration, including those risks identified by the VET Regulator.
